HANDHELD PDA FLEET

22 x Zebra TC21 (TC210K)

COUNTER SCANNERS

7 x 1D/2D QR Scanners

TOTAL INVESTMENT

BD 6,845.000

Executive Hardware Procurement Mandate: To enable real-time mobility across central warehouse stock verification, 60/40 daily cycle counts, bin-location transfers, and floor sales cart handoff, Popular Auto Spare & A/C Parts Co. W.L.L. requires enterprise-grade rugged Android PDA computers and counter checkout scanners. Consumer smartphones fail in dusty automotive spare parts environments; therefore, the industry-standard **Zebra TC21 (TC210K) Touch Computer** and high-speed counter QR scanners are specified to guarantee 100% hardware-to-ERP barcode synchronization.

1.0 Zebra TC21 (TC210K) Touch Computer Handheld PDA Specifications (22 Units)

22 UNITS • BD 300.000 / UNIT

Zebra TC21 (TC210K) Android Enterprise Touch Computer

Rugged Industrial Handheld PDA with Integrated 1D/2D Imager & Wi-Fi/Bluetooth

Designed specifically for multi-shift automotive warehouse inventory scanning, mobile POS cart handoff, and inward goods verification (PVN). Features a high-speed SE4710 1D/2D barcode imager that reads damaged, curved, and plastic-wrapped barcodes in under 100 milliseconds.

ANDROID ENTERPRISE GMS

CORNING GORILLA GLASS

IP67 WATER/DUST PROOF

REMOVABLE 3100MAH BATTERY

SCAN ENGINE

1D/2D SE4710

Dedicated hardware imager with red laser aiming pattern for rapid barcode and QR reading in dark warehouse aisles.

CONNECTIVITY

Wi-Fi & Bluetooth

Dual-band 802.11ac Wi-Fi with fast seamless roaming across warehouse APs + Bluetooth 5.0 for mobile thermal belt printers.

BATTERY POWER

Rechargeable Li-Ion

High-capacity removable 3100 mAh battery with PowerPrecision technology supporting 10+ hours continuous multi-shift scanning.

DURABILITY

IP67 & 4ft Drop

Withstands repeated 4 ft./1.2 m drops to concrete and full immersion in water/dust; resistant to automotive grease and oils.

QUANTITY ALLOCATION

22 Nos (Total)

Allocated across Central Warehouse (Inward, Verification, Dispatch) and all Retail Branch floor salespersons.

INVESTMENT SUBTOTAL

BD 6,600.000

22 units @ BD 300.000 per unit, complete with battery, USB-C charging cable, and pre-staged Android ERP client.

For fixed counter billing, checkout speed, and cash drawer coordination across all Popular Auto Spare branch retail counters, 7 units of enterprise omnidirectional 1D/2D QR code scanners are provisioned:

SCANNER SPECIFICATION	CONFIGURATION / INTERFACE	FUNCTIONAL OPERATIONAL SCOPE & CHECKOUT INTEGRATION
 Omnidirectional 1D/2D & QR Imager	AUTO-SENSE & STAND	High-frequency CMOS imager capable of reading dense automotive part labels, QR codes on packing slips, and digital QR codes on customer phone screens at up to 60 scans/min.
 USB HID & Virtual COM Interface	PLUG-AND-PLAY DRIVERLESS	Zero-delay key-stroke emulation feeding barcode data directly into the React 18 / PHP POS billing window without requiring manual cursor clicks.
 Branch Counter Allocation	7 BRANCH POS DESKS	1 dedicated scanner deployed at each physical branch cash/billing desk, synced with receipt printers and RJ11 electronic cash drawers.

ERP MODULE	HARDWARE ASSIGNED	WORKFLOW EXECUTION & OPERATIONAL TASK
Module 1: PCode & Item Master	Zebra TC21 PDAs (22 Nos)	Initial barcode label generation verification and bin location tagging during master catalog setup.
Module 3: Store & Stock Control	Zebra TC21 PDAs (Warehouse Team)	Goods Inward Verification (PVN), 60/40 daily sampling stock counts with day-closing lock, and inter-branch dispatch scans.
Module 4: POS & Branch Sales	Zebra TC21 (Floor) + Counter Scanners (7)	Floor salespeople scan parts directly at shelves for 1-scan QR cart handoff; counter staff scan QR carts for instant invoice generation.
Module 8: Hardware & Offline Sync	All 29 Hardware Devices	Centralized device management, automated APK updates via Wi-Fi, and offline SQLite queuing during network dropouts.

To ensure smooth deployment without operational downtime, SaNDS Lab provides complete pre-delivery hardware staging, custom Android firmware provisioning, and warranty support:

-  **Android Kiosk Lock & MDM Policy**
- 

Dedicated ERP Kiosk Mode: Locks Zebra TC21 devices strictly to the Popular Auto Spare Android ERP app, preventing personal browsing, social media, or gaming.
- 

Optimized Wi-Fi Roaming: Pre-configured 802.11r/k fast-roaming parameters for seamless handoffs across warehouse access points.
- 

Barcode DataWedge Calibration: Fine-tuned scan intent parameters for instant input into React input fields without latency.

-  **1-Year Manufacturer Warranty & RMA**
- 

Comprehensive 1-Year Hardware Warranty: Covers manufacturing defects, motherboard issues, and scan-engine laser performance.
- 

Rapid RMA Replacement Protocol: Defective devices under warranty are diagnosed and routed through authorized regional service centers.
- 

Battery Health Diagnostic: Built-in PowerPrecision tools to monitor battery cycle counts and capacity degradation over time.

DEPLOYMENT STAGE	TIMELINE TARGET	ENGINEERING MILESTONE & DELIVERABLE DESCRIPTION
Stage 1: Procurement & Delivery	10 – 14 Working Days	Order placement with authorized Zebra distributor, customs clearance, and delivery to SaNDS Lab tech center.
Stage 2: Staging & Firmware Lock	3 – 5 Working Days	Serial number tracking, battery testing, OS update, Kiosk lock deployment, and ERP APK installation on all 22 PDAs.
Stage 3: Branch Deployment & Testing	3 – 4 Working Days	On-site distribution to Central Warehouse and retail branches, Wi-Fi pairing, cashier training, and live trial sign-off.

Enterprise Hardware Procurement Investment

Complete hardware package comprising 22 units of Zebra TC21 Android Touch Computer Handheld PDAs and 7 units of Desktop Counter 1D/2D QR Scanners, inclusive of pre-delivery staging, MDM configuration, and 1-year warranty.
