

SRV-001 (VER 1.0)

ENTERPRISE CLOUD INFRASTRUCTURE & SLA

 **BD 44.000 / MONTH**

Dedicated Enterprise Cloud Server Infrastructure, cPanel/CloudLinux Hosting, Imunify360 Security Suite & 24/7 Managed SLA Maintenance Agreement

Dedicated cloud compute allocation, licensed cPanel/CloudLinux ecosystem, Imunify360 AI cybersecurity defense, 500 GB automated offsite JetBackup vault, and 24/7 proactive DevOps maintenance agreement.

CLIENT ENTERPRISE

A/C Parts Co.

SERVER ARCHITECTURE

Dedicated Cloud VPS +
NVMe

MONTHLY MAINTENANCE

BD 44.000 / Month

SUPPORT & UPTIME SLA

**24/7 Managed (99.9%
Uptime)**

Executive Infrastructure Mandate: To guarantee sub-second transactional performance across all retail branches, ensure continuous offline-to-cloud synchronization for counter POS terminals, and safeguard automotive catalog databases against data loss or cyber threats, SaNDs Lab Middle East W.L.L. provisions and maintains a fully isolated, enterprise-grade cloud server node. This agreement formalizes the provisioned hardware configuration, licensed software ecosystem, automated offsite snapshot schedules, and 24/7 managed support SLA for a predictable monthly fee of **BD 44.000**.

1.0 Dedicated Hardware & Cloud Compute Specifications

HARDWARE ALLOCATION

PROCESSOR POWER

3 vCPU Cores

High-frequency dedicated cloud compute threads optimized for multi-threaded MySQL InnoDB queries & concurrent PHP 8.3 FPM POS workers.

SYSTEM MEMORY

12 GB RAM

High-speed DDR4 ECC RAM with 6GB dedicated to MySQL InnoDB buffer pool, Redis session caches, and real-time BI report compilation.

PRIMARY STORAGE

200 GB NVMe

Enterprise Gen4 PCIe NVMe storage providing >60,000 IOPS for instantaneous barcode searches, stock scans, and invoice commits.

DATA TRANSFER

4 TB Bandwidth

High-speed redundant Gigabit uplink ensuring uninterrupted branch billing, document attachment downloads, and remote mobile access.

STATIC NETWORKING

1 Dedicated IP

Exclusive public IPv4 address dedicated solely to Popular Auto Spare with clean reputation, custom reverse DNS, and branch firewall binding.

SYSTEM GOVERNANCE

Root Access

Full administrative SSH/root privileges securely managed and guarded by certified SaNDs Lab DevOps engineers under strict change control.

The server environment is bundled with enterprise-grade commercial licenses and multi-layered security shields to eliminate single points of failure, defend against unauthorized intrusion, and provide automated disaster resilience:

COMPONENT / LICENSE	TIER / VERSION	TECHNICAL SCOPE & FUNCTIONAL ROLE
 CloudLinux OS	ENTERPRISE EDITION	Hardened Linux kernel featuring LVE (Lightweight Virtual Environment) and CageFS containerization. Isolates resource usage, prevents server runaway processes, and provides zero-downtime kernel live patching.
 cPanel & WHM	INCLUDED & LICENSED	Full-featured WebHost Manager & cPanel control panel facilitating automated DNS management, database clustering, multi-version PHP selection (PHP 8.2 / 8.3), and automated TLS 1.3 SSL renewals.
 Imunify360 AI Security	FULL SECURITY SUITE	Comprehensive multi-tier cybersecurity defense: ✓ Real-time AI Malware Scanner: Instant file quarantine and proactive PHP execution defense. ✓ Web Application Firewall (WAF): ModSecurity rules blocking SQL injections & XSS exploits. ✓ Intrusion Detection/Prevention (IDS/IPS): Automated port-scan & brute-force IP blocking. ✓ KernelCare Integration: Automated live kernel vulnerability patches without server reboots.
 JetBackup Enterprise	500 GB OFFSITE BACKUP	Automated scheduled backup daemon paired with 500 GB dedicated external storage : ✓ Automated daily incremental snapshots of ERP files, attachments, and configurations. ✓ Hourly automated MySQL database dumps with 30-day rolling point-in-time recovery (PITR). ✓ Geographically separated backup repository ensuring zero data loss during physical disasters.

 **Zero-Day Immunity & Licensing Guarantee:** All software licenses (CloudLinux, cPanel/WHM, Imunify360 AI Suite, JetBackup) and the 500 GB dedicated offsite storage tier are fully covered under the **BD 44.000 / month** maintenance fee with zero supplemental license renewal fees.

📶 24/7 Automated Health Telemetry

- ✓ **60-Second Heartbeat Ping:** Continuous HTTP, HTTPS, MySQL, and SSH daemon polling from 3 global nodes.
- ✓ **Resource Threshold Alerts:** Proactive notification triggers when CPU > 80%, RAM > 85%, or Disk > 80%.
- ✓ **MySQL Slow-Query Trapping:** Automatic logging and indexing of queries taking > 500ms to preserve counter checkout speed.
- ✓ **Real-Time Escalation:** Automated SMS and high-priority Slack/Email dispatch to SaNDS Lab on-call engineers.

⚙️ Fully Managed DevOps Administration

- ✓ **Zero-Downtime OS & Security Patching:** Weekly vulnerability audits, package updates, and firewall tuning.
- ✓ **Database Tuning & Table Optimization:** Periodic index defragmentation, InnoDB cache resizing, and log rotation.
- ✓ **Automated SSL Certificate Renewal:** Continuous Let's Encrypt TLS 1.3 certificate rotation with zero expiration risk.
- ✓ **Quarterly Disaster Recovery Simulation:** Periodic mock restore drills from the 500 GB JetBackup vault to verify snapshot integrity.

SLA METRIC	TARGET STANDARD	DESCRIPTION & REMEDIATION COMMITMENT
Core Service Uptime	99.9% MONTHLY UPTIME	Guaranteed availability for cloud server compute, MySQL database, and web POS services (excluding scheduled maintenance windows communicated 48h in advance).
Critical Incident Response	< 30 MINUTES (24/7)	Immediate emergency triage and hands-on DevOps remediation for total server outage, database deadlock, or active cyber threat.
Routine Maintenance Response	< 4 HOURS	Provisioning new branch IP whitelists, configuration changes, user email setups, or performance fine-tuning.

Enterprise Server Hosting & 24/7 Managed Maintenance Fee

Fixed, all-inclusive monthly retainer covering 3 vCPU / 12 GB RAM / 200 GB NVMe hardware, CloudLinux & cPanel licenses, Imunify360 AI security suite, JetBackup + 500 GB offsite storage, 24/7 uptime monitoring, and dedicated DevOps engineering support.

BD
44.000
PER MONTH
(RECURRING)

Covered Infrastructure & Managed Service Item	Billing Frequency	Monthly Fee (BHD)
Dedicated Cloud VPS Hardware & High-Speed Network 3 vCPU Cores • 12 GB RAM • 200 GB NVMe Storage • 4 TB Bandwidth • 1 Dedicated Static IP	Monthly Recurring	Included
Enterprise Software & AI Cybersecurity Licenses CloudLinux OS Enterprise • cPanel/WHM License • Imunify360 AI Suite • KernelCare Live Patching	Monthly Recurring	Included
Automated Snapshot Daemon & 500 GB Offsite Vault JetBackup Enterprise License • 500 GB Dedicated Offsite Cloud Storage • Point-in-Time DB Recovery	Monthly Recurring	Included
24/7 Proactive Monitoring, Health Alerting & DevOps Support 99.9% Uptime Guarantee • 60s Heartbeat Monitoring • OS/DB Patching • Emergency Triage	Monthly Recurring	Included
TOTAL FIXED MONTHLY SERVER & MAINTENANCE COST:		BD 44.000 / Mo

Billing & Payment Terms: The server maintenance fee of **BD 44.000** is billed in advance on the 1st day of each calendar month. Payment ensures continuous hosting operation, active cybersecurity shield protection, automated backup storage renewal, and uninterrupted 24/7 system administration.

5.0 Executive Multi-Party Digital Acceptance Console

CRYPTOGRAPHIC SIGN-OFF

By digitally signing below, all three authorized executive parties formally approve and execute the server hardware specifications, software licensing ecosystem, backup retention schedules, and the monthly recurring maintenance commitment of **BD 44.000**.
